

# KAHNAWÀ:KE CASINO PROJECT

Phase 1 concluded that a casino would be the most viable option for a land based gaming operation.

Phase 2 research is being carried out and must follow these five principles:

## 5 GUIDING PRINCIPLES

- 1** The collective will be the prime beneficiary.
- 2** No lands slated for housing developments will be used.
- 3** Community members will receive a dividend.
- 4** Social impacts will be addressed through immediate and effective measures.
- 5** There will be independent community management of all gaming profits.
